County Convention Date.

The date of the republican county convention has been fixed for Saturday, September 20, and will be held at the court house at Brownstown. There will be 184 delegates in the convention. These delegates will be apportioned among the several townships and will be chosen September 6. The formal call designating the places where the republicans will meet in mass convention in the several townships for the selection of these delegates, the hour of meeting and the apportionment to each township will be issued next week.

September 20 is the date fixed for formally opening the campaign in the state, and good speakers will therefore be secured to address the convention.

W. H. BURKLEY,
Chairman.

SEPTEMBER 23 is the day that President Roosevelt will spend in Indiana. He will be given an enthusiastic reception.

THE Ninth district democrats will probably nominate L. J. Kirkpatrick, of Kokomo, for congress today at the Lebanon convention.

THE democrats are still quarreling about who wrecked the democratic party. All are trying to locate the responsibility but without any degree of success. Why not the guilty party own up.

THE reorganizers have found out that Bryan will have his say. If he has no engagement to speak his mind he writes it out and publishes it in the Commoner. Bryan is showing the reorganizers that he is still a quantity to be reckoned with.

ACCORDING to Washington dispatches it is probable that a special session of the senate will be called about the middle of November to take action on a reciprocity treaty with Cuba. President Roosevelt's ideas of what our trade relations with Cuba should be will be embodied in this treaty.

Under the Canvas.

Grewold's Uncle Tom's Cabin troupe arrived this morning in a special car and in short time had the big canvas up on the show grounds on west Second street. The band with the troupe appeared on the street before noon and furnished some excellent music.

The play will be given under the big canvas tonight and doubtless will draw a large crowd. The press notices indicate that this company presents the play quite well.

In Honor of Miss Beal.

Mrs. John Wilhelm and Miss Doro they Sandau entertained at the home of Mr. and Mrs. John Wilhelm on West Second street this afternoon in honor of Miss Nellie Beal, of Salem. About fifty guests were present and spent a delightful afternoon.

Miss Mable McElvaine who has visited here for several weeks returned to her home at Eminence, Ky., today.

Louis Schneck has returned from a business trip to Springfield Illinois. Yesterday while he was there he bought and inspected 35000 pounds of wool and besides had sufficient time to visit the Lincoln monument in that city.

Wash VanMeter, chef for the San Francisco excursionists arrived home today. He left the party at Los Angeles according to original plan. He reports the Seymour party in fine condition and enjoying the trip remarkably well.

Overland Trip to Sullivan.

CARLISLE, IND., August 8th, 1902.

EDITOR REPUBLICAN:

I passed through your town on the morning of the 1st inst. before your office, or any of the places of business were yet open, with team to drive through to this place that I might put it to work breaking for wheat on my farm here. Found some very rough and stony roads through Lawrence and Martin counties but in every place where there was sufficient soil to produce crops the prospect for a bountiful yield was most promising.

Arrived in Carlisle on the 3rd and found the farmers preparing to move the melon crop, which on this side of the state is simply immense. From six to ten cars are loaded daily in this little town. But hearing of the vast numbers being loaded at Jackson, in the adjoining county, I went down on last Friday morning and was perfectly amazed to see the town completely blockaded with teams loaded with the luscious fruit.

Fifty cars were standing upon the track, some loaded and sealed ready for shipment while the others were being filled as fast as willing hands could place them. The melons are all weighed before placing them in the car and they are rated as to price according to average weight and so received by the buyers who come there from all the large cities and take everything offered.

The gentleman I rode down with showed me a car he was loading with "The Triumph" that averaged 36 pounds and for which he had just been offered \$100.

Yours Respectfully,
WILL H. RAPP.

Prof. H. C. Montgomery has returned from Battle Creek, Michigan, where he went with Mrs. Montgomery two or three weeks ago. She did not return with him but will remain at the sanitarium there for several weeks yet. Her health has improved considerably since she went there. Prof. Montgomery spent a part of his time while away at the Bay View summer school. He is now busily engaged in getting ready for the opening of the city schools.

KURTZ.

James Harvey Davis, of Maumee, fell into his cellar last week and injured his collar bone.

The Sunday school celebration on Aug. 16, we hope will be largely attended as special invitations have been sent to sixteen different Sunday schools. Come one and all.

John Lutes and son took two loads of spoked to Ewing Friday.

Minerva Mize and her son visited her brother, Jas. Kennedy and family Thursday.

Thos. J. Richards, of Clearspring, was seen here Saturday and Sunday.

The dance Saturday night was not a paying thing we hear so why not try something better.

J. J. Hattabaugh, of Washington county, came over to see his daughter, Anna Kennedy, Friday and returned home Saturday.

Don Browning came over from Houston with his threshing machine Friday. He is still fanning out the grain.

Buell Brown was selling fertilizer Saturday.

Thos. Lindley was down to Wm. H. Bowers Sunday.

Isaac Wasson, formerly of this place was found dead last Saturday evening. He lived west of Clearspring.

M. E. quarterly conference was fairly well attended Sunday by neighboring people.

The colored campmeeting will begin August 14, according to the bills.

Pauline Todd went to visit her brother, John Ambruster, in Brown county, Monday.

Don Browning went to Seymour Monday for repairs for his engine.

Rev. Z. F. Gorbet was 46 years old last Friday and, to his great surprise, several of his relatives and friends had gathered in and made a good dinner for him. He said he only wished that his birthday would come every day in the year.

Two new large engines went west Tuesday morning on the freight. Mr. Walsh surely aims to have a well equipped road.

FOOD AND THE SEXES.

The Male Human Needs to Eat More Than the Female.

According to a writer in the Lancet, the male human needs more food than the female not only on account of his larger stature, but also because he is the more katabolic of the two. The man tends to expend energy and the woman to store it up in the form of fat; he burns the faster. This sexual difference shows itself in the very blood. The man has a larger percentage of chromocytes than the woman, showing that he needs a proportionately larger quantity of oxygen in order to maintain his more active combustion, a fact which one may associate with his comparative freedom from chlorosis. Moreover, weight for weight, his pulmonary capacity is greater than that of the woman, whose smaller respiratory need is further shown by the facility with which she can without discomfort diminish her breathing power by means of the corset.

"The great contrast between the metabolic activity of the two sexes," continues the writer, "was forcibly brought home to me by a military display given by a troop of dusky amazons, with whom were also a few male warriors. The women, in spite of their daily exertions, were all rounded and plump, some very much so, no single muscle showing through the skin, and it was noticed that their movements, though full of grace, lacked energy and 'go.' The men, on the other hand, were spare, their muscles standing out plainly under the shiny skin, and they, in further contrast with the women, displayed a truly amazing agility, bounding about and whirling round in a most astounding fashion. The women, in short, were essentially anabolic, and the men were katabolic. I may here draw attention to the fact that men are apt to be larger meat eaters than women, just as they are, possibly in consequence of this very fact, more prone to drink alcohol and to smoke tobacco."

SLEEPING HEROES.

Mighty Men of the Past That Are Expected to Return.

Is there any man that has not its sleeping hero? A correspondent recently pointed out that the time for the fulfillment of the prophecy that the tenth of Krishna will restore to India her independence is near at hand, and every nation has some such savior to whom the people look. West country rustics still believe that Arthur did not die, but sleeps in Avalon, and that in the hour of Britain's need he will awake, deliver the land and restore the golden age. In Germany it is a popular belief that Charles V. will some day wake from his enchanted sleep to reign over Germany, Spain, Portugal, Denmark, Belgium and Holland. Thousands of French peasants hold that Napoleon is only sleeping and that at some future time he will reappear and rule. And Mr. Newbolt has enshrined the Devon legend that Drake is only listening for the drum.

The Irish peasantry steadfastly refuse to believe that Mr. Parnell is really dead. They assert that his death was a ruse, that he was an interested spectator of his own funeral and that when the time comes he will emerge from retirement to give Ireland her independence. Every true Moslem believes that when antichrist appears Mohammed Mohadi will awake and conquer him. A Moorish legend declares that Bobadil of Chico sleeps spellbound near the Alhambra and that one day he will awake to re-establish the Moors as rulers of Granada. The Servians look to King Lager, slain by the Turks in 1389, as their final hope, and should Switzerland be again threatened by tyrants Swiss folklore declares that the three members of the Tell family who are sleeping at Rütli, near the Vierwald-Staten-See, will rise from their enchanted slumber and maintain the freedom of the land.—London Chronicle.

Hopi Courtship.

When a Hopi maiden decides which of the eligible young men of the tribe she wishes to marry, she goes and sits in his house and grinds corn until he is sufficiently impressed by her industry to marry her.

After the ceremony, which is an elaborate one, the couple go to live in the wife's house. If she tires of her husband, she can obtain a divorce by merely throwing his saddle out of the house. After marriage the house, fields and all their property except the herds belong to the wife.

The Hopis are indulgent parents. The right of the children to do as they please is never questioned.

How a Woman Gets a Seat.

"I will tell you how to work it," said a woman, whose figure showed she would be tired by standing, to a companion in a Broadway car. "When there is no vacant seat, watch for two men who are in conversation and stand right in front of them."

"Each one will want his friend to think he is very polite, so both of them will jump right up and offer their seats. That's the way I do, and it never fails."—New York Herald.

An Effective Way.

"They say," said the young dramatist, "that I shall have to cut my play down, but I really don't know where to begin."

"Why not start at both ends," his candid friend asked, "and work toward the middle?"—Chicago Record Herald.

Opposite Meanings.

"Cleave" is the best instance of an English word with two opposite meanings. "Nervous," "cleave" and "propugn" are other instances.

The man who has the most to say about charity beginning at home is generally the one who thinks that reform ought to begin on the other side of the world.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, Ohio.

The Wagon Makers.

Chattanooga, Tenn., Aug. 14.—The National Wagon Makers' association held a meeting on Lookout Mountain yesterday. Representatives were present from all parts of the country. One purpose of the meeting was to draw the Southern wagon makers into closer relations with the national organization. It was found that the cost of materials in the manufacture of wagons had increased 20 per cent., and it was admitted that wagon makers all over the country would be compelled to make a corresponding increase in the price of their manufactured product.

A Cure for Cholera Infantum.

"Last May," says Mrs. Curtis Baker, of Bookwalker, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had give up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by C. W. Milhous.

W. J. Beck, who now lives in the house, will build on a vacant lot corner Eleventh and California streets.—Columbus Times.

This will be news to most Seymour people, who will regret to lose Mr. Godfrey as a citizen.

One of the pleasant social events of the season occurred at Louisville Sunday August 10th. Miss Lucy gave a private picnic in honor of Miss Mary L. nch, of Indianapolis, at Jannes Grove, who spent the summer with her cousin Miss Elizabeth Welch. Twenty four couples attended. Dancing and boating were the principal features of the day. Mr. and Mrs. P. J. Lucy chaperoned the young people. C. H. Elrod photographed the crowd for the Louisville Courier Journal. Miss Lynch arrived here Monday to spend a few weeks with her sister, Mrs. Mike Riehl, before returning home.

Soldiers' Reunion.

BEDFORD, IND., August 12, 1902.

EDITOR REPUBLICAN:

Forty years ago today one hundred and four men left this city for the front in the civil war. Today we meet to celebrate the fortieth anniversary of our departure for the front. Nineteen of the original members of Co. G, 4th Ind. Cavalry are here. Twenty-six are yet living.

Tables were set in the circuit court room where a bountiful dinner was spread by the wives, daughters and friends of the comrades.

After dinner speeches were made by Col. C. C. Matson, Judge W. H. Martin, Lt. T. C. Williams and Maj. A. S. Rosencranz. The last two were members of the 4th Ind. Cav.

J. W. A. Coom was elected president and T. T. Roy secretary of the association.

After adjournment comrades Col. V. V. Williams and Lt. T. C. Williams, treated Maj. Rosencranz, of Evansville, Ind., B. F. Turley, of Orleans, Ind., and the writer to a ride among the quarries which was a sight worth any ones time and expense to go and see.

Backache

Is the periodic bane of many a young woman. She not only suffers pain and distress of body, but dreads the recurring period when she cannot enjoy social pleasures and must forego active exercise.

Dr. Pierce's Favorite Prescription cures backache, headache, sideache, nervousness, sleeplessness, and other conditions commonly resulting from womanly ailments. It establishes regularity, dries unhealthy drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong and sick women well.

"Your Favorite Prescription is certainly a wonderful medicine for the ills of women," writes Miss Edith Austin (Sec'y Woodmen's Circle, Kansas City), residing at 606 North Sixth St., Kansas City, Kans. "I have heard it spoken of in highest praise by many, and so I am sure that my experience has only been that of one of many and certainly deserves a good word. About a year ago I began to have severe pains across my back brought on by a cold at the critical time, and each month afterward I was in pain and distress until I dreaded its approach. Your remedy was prescribed and the way it acted on my system was almost too good to be true. I certainly have regained my health and strength, and no longer have any pains nor that extreme lassitude. Am restored to perfect health."

Dr. Pierce's Favorite Prescription is commended for the use of young women. It contains no alcohol, and is entirely free from opium, cocaine, and other narcotics. It is purely vegetable and cannot disagree with the weakest constitution.

If you are led to the purchase of "Favorite Prescription" because of its cures of other women, do not accept a substitute which has none of these cures to its credit.

YOUNG WOMEN will find Dr. Pierce's Common Sense Medical Adviser a safe guide to healthful living. This great work is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers. Address Dr. R. V. PIERCE, Buffalo, N. Y.

A SERPENT'S APPETITE.

His Meal of a Rubber Boot Was a Disastrous One.

From a gentleman who was at one time a resident of Brazil comes a remarkable story about a snake that he encountered in the woods one day which followed him with much persistence.

"Sitting on a stump, I became aware of the approach of a huge snake," writes this gentleman. "He must have been fifteen feet in length. There was no doubt the snake was about to attack me."

"Without hesitating for a moment I discharged my two barrels. For a short time the reptile raged furiously, and I climbed a nearby tree. I had hardly reached the first boughs when I saw the snake approaching the tree, and I climbed up behind me."

"Higher and higher I went. Higher and higher came the serpent. My heavy rubber boots were a great drawback to my climbing, so I tried to get rid of them. I took one off and dropped it, and just as I had the second in my hand the snake reached me, and I, in my desperation, tried to shield myself with the rubber boot."

"Then the snake made a dash and, getting hold of the boot, turned and descended the tree. I was saved, but I had not the courage to leave the tree before my friends arrived. I told them of the adventure I had and rode home minus one rubber boot. Of his snake ship nothing could be seen."

"A few weeks later on another hunting trip we found in the road a big dead snake, terribly swollen. We cut it open and found, to our astonishment, my rubber boot not in the least injured."—New York Times.

NATURAL HISTORY.

Thoroughbred dogs are less intelligent than mongrels.

A full grown elephant can carry three tons on its back.

The horse has no eyebrows.

There are 4,500 muscles in the body of a moth.

The Dorking fowl is the only living bird which in its adult condition possesses a five-toed foot.

The largest bird of prey in the old world is the lammergeier, or bearded vulture, which has a wing expanse of up to ten feet.

Comparatively few horses attain to seventeen hands, but Kansas boasts of one that measures twenty hands and weighs 2,412 pounds.

Wasps may often be observed detaching from fences, boards or any old wood the fibers, which they afterward manufacture into paper mache.

The smallest of British animals is the harvest mouse, which makes a globular nest in wheatfields. A full grown specimen weighs half an ounce.

The First Iron Ship.

The first iron ship has more reputed birthplaces than Homer. Both the Clyde and the Mersey claim pre-eminence in this respect. Sir E. J. Robt. son of Edinburgh designed an iron vessel in 1816, which was not launched till three years later, and it is said that an iron boat was worked on the Severn even as far back as 1757. Steel was not used in the construction of merchant ships' hulls until 1850. Old salts were not alone in their belief that wood was meant by Providence to float, but iron to go to the bottom. A naval constructor of some repute once said: "Don't talk to me of iron ships. They are contrary to nature." Now none but small craft are built of wood in this country.—Chambers' Journal.

Soothing.

Li Hung Chang had beyond all doubt an iron will and a very unsentimental heart. Once when he was victorious of Chihli a man who had tampered with a telegraph wire was brought before him. The man wrung his hands and begged for mercy, saying that he would never touch the wire again.

"Don't be vexed, my good fellow," said Li, "for trouble yourself any further about the matter. I shall take care that it does not happen again."

Then he turned to the jailers and gave the order, "Cut off his head!"

Nice For Lovers.

"If I am not too presumptuous," said the young clerk, "I will ask you to look at our new typewriter especially adapted for writing love letters."

"Oh," exclaimed the blushing maid, "is there any difference?"

"Yes, indeed! Among the punctuation points there is a little star for marking kisses."—Philadelphia Record.

Literary Subjects.

"Whom did you discuss at your literary club this afternoon, dear?" asked the husband in the evening.

"Let me see," murmured his wife. "Oh, yes, I remember now! Why, we discussed that woman who recently moved into the house across the street from us and Longfellow."—Ohio State Journal.

A Financial View.

Eustacia—I knew that man was a physician by the way in which he shook hands—his tender, delicate, considerate touch.

Edgar—Yes, of course; that's his five dollar touch.—Detroit Free Press.

A Mean Man.

"He is the most inconsiderate man I understand."

"How?"

"He refuses to give his wife any grounds on which to get a divorce with alimony."—Chicago Post.

Sweeping.

"I was just telling my daughter," said Mrs. Nextdoor, "that it's a shame of her to play the piano on Sunday."

"Iuh!" exclaimed Mrs. Prepprey. "Why Sunday especially?"

FLOWER AND TREE.

A single leaf of the orange tree carefully planted will often take root and grow.

Rosin and tallow in equal parts make an excellent covering for wounds in fruit trees.

"Belling" a tree—that is, killing it by destroying the bark in a circle around the trunk—injures it for lumber.

In transplanting trees all roots that have become bruised or broken should be cut clean away behind the broken part.

A pan of water kept steaming in the stove will keep the atmosphere in good condition for the growth of house plants during the winter.

Trees should always be trimmed when young and growing in such a manner that there will be no necessity for cutting off large limbs.

Wood mold, provided it is fine and free from roots and sticks, with the addition of a little well rotted compost, makes a splendid soil for the pots or boxes in which to grow the house plants in winter.

Orchards generally produce full crops only every other year. This is because the full crop of one year so exhausts the fruit producing qualities of the soil that it is not able to make a full crop the next year.

The Linseed Poultice.

A dispensary doctor in the Emerald Isle is expected to dispense many things besides drugs.

His life is certainly not a bed of roses. These people are woefully ignorant, yet no Irishman likes to confess to want of adequate knowledge.

One day I ordered a linseed poultice to be put on an old man's chest. The next morning he was no better, and I was accused of incompetency.

"I put the plaster to him, your honor," said his wife, "though he spit an spit like a big snail. But it ain't done no good! An', docthor, honey, it was a big dose!"

Then I realized Mrs. Moulton's method of poulticing her good man's chest. She had applied the soft mass internally!

Another time I compounded (we are our own dispensers in the Isle of Destiny) a box of pills for "brown kitties." The result of grinding these with a big stone and wearing the powder as a charm was not satisfactory. My verdict as "crownor" certified "natural causes." It should have been given as "crass ignorance."—Good Words.

We have never had as great troubles in the daytime as we have imagined when lying awake at nights.—Aitchison Globe.

Of all money transactions in England 97 per cent are done by checks and only 3 per cent by notes and gold.

HERE'S A POINTER.

Read It, It's Short, Sharp, and to the Point.

Mr. J. Blair of 114 north Lynn St., Seymour, Ind., says: For some time I have been a victim of severe nervousness, sleeplessness and indigestion.

I heard Dr. A. W. Chase's Nerve Pills well spoken of and thought I would try them. I got a box of the pills at A. J. Pellens' drug store and after using one box of the medicine I can say that the results were very satisfactory and I think with future use I would get permanent results. I think these pills a grand tonic."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

The Refort Judicial.

When Judge Barnard was on the bench and holding court in Poughkeepsie, a lawyer who did not like him chanced to see a one cent coin lying on the floor. Picking it up and holding it forth in ostentatious display, he said:

"I imagine, your honor, from the value of this coin, that it must belong to the court."

"And I imagine," replied Judge Barnard, "that if it was not such a small coin the court never would have seen it."—New York Times.

Candid.

"Do you mean to say that you have not read all of Shakespeare's plays?"

"No," answered Miss Cayenne. "To tell the truth, I did not mean to say it. As in the case of most people, the confession slipped out quite by accident."—Washington.

A YOUNG LADY'S LIFE SAVED.

At Panama, Columbia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Charles H. Uter, a prominent physician, of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by C. W. Milhous.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is overworking in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail.

FACTS AND FICTION.

The Experience of Seymour Citizens is Easily Proven to be a Fact.

The most careful investigation will prove that the following statement from a resident of Seymour is true, read it and compare evidence from Seymour people with testimony from strangers residing in far away places. Still closer investigation on the subject will surprise you to learn the number of people in Seymour who re-echo what this citizen says:

Mr. Jesse Day, of Mill street, veteran of the civil war, says: "I procured Doan's Kidney Pills sold at C. W. Milhous, the druggist, and their use strengthened my back and removed the pain. They also banished the aching in the back and top of my head and regulated the action of the kidney secretions. There has been no return of the trouble since."

Dr. Charles H. Uter, a prominent physician, of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by C. W. Milhous.

It adds pleasure to the life beautiful. Doubles up one's allowances of bliss. That's what Rocky Mountain Tea does. 35 cents. Ask your druggist.
